

EcoVantage® Commercial Fixtures with SilverShield™ Antimicrobial Glaze

SilverShield Antimicrobial Technology provides a permanent antimicrobial glazed ceramic surface that inhibits the growth of stain and odor causing bacteria, mold, and mildew.

Silver particles are incorporated into the glaze and permanently fired onto the fixture to create an ultra-smooth surface and invisible shield of added protection against bacterial growth.

Proven Technology

SilverShield antimicrobial glaze uses silver particles to inhibit the growth, reproduction, and respiration of stain and odor-causing bacteria, mold, and mildew in commercial fixtures.

Time and Water Saving

SilverShield technology produces an ultra smooth surface that requires less water and harsh chemicals to keep the bowl looking like new.

Continuous Performance

Silver particles added to the ceramic glaze during the manufacturing process become an integral part of the fixture. The antimicrobial properties of SilverShield are guaranteed to last the lifetime of the product.

Engineered Plumbing Solution.

Ideal for healthcare, schools and commercial buildings to help create a more sanitary environment.

How SilverShield™ Works

Zurn EcoVantage commercial fixtures with SilverShield use silver particles to impart antimicrobial activity on the mirror smooth surface of our toilets. The permanent coating works naturally through the controlled generation and release of silver ions.

The SilverShield surface attacks bacteria and protects the bowl. Multiple methods of antimicrobial action prohibit common bacteria from developing a resistance to silver. These include:

- Disruption of essential nutrient intake from bacteria **so they can't grow.**
- Prevention of cell reproduction **so they can't multiply.**
- Damage to bacterial cell surfaces **so they can't survive.**

Zurn EcoVantage fixtures with SilverShield antimicrobial glaze will be available on the following models:

Model Number	Description
- Z5615-BWL-AM	Wall-Mounted Flush Valve Bowl with Top Spud
- Z5616-BWL	Wall-Mounted Flush Valve Bowl with Top Spud and Bedpan Lugs
- Z5617-BWL	Wall-Mounted Flush Valve Bowl with Back Spud
- Z5655-BWL-BA-AM	Floor-Mounted Flush Valve Bowl with Top Spud
- Z5656-BWL-AM	Floor-Mounted Flush Valve Bowl with Top Spud and Bedpan Lugs
- Z5657-BWL-AM	Floor-Mounted Flush Valve Bowl with Back Spud
- Z5654-BWL-AM	Floor-Mounted, Youth Height Flush Valve Bowl with Top Spud
- Z5665-BWL-BA-AM	Floor-Mounted, ADA Flush Valve Bowl with Top Spud
- Z5666-BWL-AM	Floor-Mounted, ADA Flush Valve Bowl with Top Spud and Bedpan Lugs
- Z5635-BWL	Floor-Mounted, Back Outlet Flush Valve Bowl with Top Spud
- Z5636-BWL	Floor-Mounted, Back Outlet, Flush Valve Bowl with Top Spud and Bedpan Lugs
- Z5637-BWL	Floor-Mounted, Back Outlet Flush Valve Bowl with Back Spud
- Z5645-BWL	Floor-Mounted, Back Outlet, ADA Flush Valve Bowl with Top Spud
- Z5646-BWL	Floor-Mounted, Back Outlet, ADA Flush Valve Bowl with Top Spud and Bedpan Lugs
- Z5647-BWL	Floor-Mounted, Back Outlet, ADA Flush Valve Bowl with Back Spud
- Z5410	Wall-Mounted Blow Out Service Sink
- Z5420	Floor-Mounted Blow Out Service Sink
- Z5461-AM	Wall-Mounted 28" x 22" Surgeon Sink, Single Hole
- Z5468-AM	Wall-Mounted 28" x 22" Surgeon Sink, 8" Center Faucet Holes
